

2017 Engineering Innovation in Health Symposium

Student teams have been collaborating with clinical mentors to define and solve unmet challenges in healthcare. Students will demonstrate their functional prototypes in interactive booths. Refreshments will be served.

When: Thursday, June 1st 2017 from 4:30-6:30 PM
Lightning Pitches start at 5:00 pm

Where: University of Washington, HUB 250

Please RSVP at <https://goo.gl/forms/rFa1xOJOIreDTG6P2> or email eihealth@uw.edu

Engineering Innovation in Health Teams:

IV arm trainer, UW Center for Research in Education and Simulation Technologies

Fistula isolation to improve wound healing, Harborview Medical Nursing

Improved design for continuous bladder irrigation, UW Urology

Protective mouthguards for orthodontic patients, UW Orthodontics

Cardiac arrest monitor, Providence Hospital Emergency Medicine

Venous ulcer vacuum seal, UW Nursing
