

TRAIL

TRANSLATIONAL RESEARCH
AND INFORMATION LAB
accelerating innovation in health care

Health Sciences Graduate Students and UW Medical Residents!
Join us in the UW HSL Pacific Room on September 12th to learn
about ConceptualEyes!

On Wednesday, September 12, the UW Health Sciences Library will host an interactive demon-

stration of ConceptualEyes, an explainable AI platform designed to accelerate research discovery. The ConceptualEyes team will walk through examples, including ones that the audience might suggest, to illustrate how the tool works, answer questions from the audience, and stay back to provide one-on-one help and guidance.

Product Information

“ConceptualEyes accelerates discovery from months to minutes as a novel hyper-converged explainable artificial intelligence (AI) platform that offers data, software and platform services for knowledge extraction, integration and discovery. It is an explainable AI platform that offers researchers the ability to explore the what-is, connect the what-if, conceptualize the what-else and hypothesize the what could -be.”

The Conceptual Eyes Team

WHEN

Wednesday, September 12th, 2018
10:00 am - 12 noon
