

ENGINEERING INNOVATION IN HEALTH

2018 SPRING SHOWCASE

Six student teams comprising multiple engineering disciplines from undergraduate and graduate programs have been collaborating with clinical mentors to define and solve unmet challenges in healthcare throughout the 2017-2018 academic year. Please join us at the 2018 Spring Showcase, where teams will give a lightning pitch of their clinical challenge and demonstrate their functional prototypes in interactive booths. Refreshments will be served.

WHEN: THURSDAY, 5/31/2018, 4:30 - 6:30 PM
LIGHTNING PITCHES START AT 5:00 PM

WHERE: UW INTELLECTUAL HOUSE

Please RSVP at <https://goo.gl/s4SrDU> or email eihealth@uw.edu

Engineering Innovation in Health teams:

BITE BLOCK REDESIGN, UW Anesthesiology and Pain Medicine
PELVIC FLOOR BIOFEEDBACK, UW Urology
FLUSHCUT (fibula cutting tool), UW Head & Neck Reconstruction
LOAD-A-DOSE (insulin self-injector), UW Family Medicine
MONITORING FETAL WELL-BEING, UW Anesthesiology and Obstetrics
TELE-CYTOSCOPY, UW Urology
