ITHS LEAF Hands On Workshop

Featuring

Bas de Veer

UW Medicine Research IT,
Bio-Medical Informatics Services Manager

Leaf is a self-service tool which provides UW investigators with a user friendly interface for querying the electronic health system records within UW Medicine. Due to its direct access to the university health data system, Leaf is currently only available to investigators and research teams affiliated with the University of Washington Medicine Department who have an AMC account.

If you currently have **AMC System access** and are **using Leaf**, join us for this hands on workshop. Bring your ideas, example cases, and problem queries along with **your own laptop**. We'll explore ways to improve your search results!

When

Tuesday, February 12th, 2019
1:00 - 3:00 p.m.

Where

Translational Research & Information Lab (TRAIL)
T216, UW Health Sciences Library
1959 NE Pacific Street , Seattle WA

To sign up for Leaf access before the workshop go to:
<https://www.iths.org/investigators/services/bmi/leaf/>
